

ATHARV PUBLIC SCHOOL

***EMBARK ON A JOURNEY OF
LIFELONG LEARNING***

Meet The Management Team

Sanjiv Borse
Trustee

I am pleased to welcome you and your ward to Atharv Public School. We continuously strive to provide excellent education and equip all students with skills, knowledge and mindset to thrive in today's world. We constantly develop our infrastructure to complement the efforts of our academic staff. We aim to provide all possible opportunities to ensure our students excel academically and become good human beings. Education at Atharv is a joyous journey, and we invite you to experience it as your child sets on a path of lifelong learning!

Education is the cornerstone of society, a pillar on which human existence rests and a leading light that helps humankind make its way in the quest for the unknown. Every human being is born with an intellectual quotient, and at Atharv, we work towards developing students' spiritual and emotional quotient for holistic development. I am pleased to see the pace at which the students are winning acclaim and making an impact in the community, and I wish to see it grow exponentially in the coming years!

Leena Borse
**Chairperson/
Principal**

Piyush Borse
Director

Opportunities begin with education, and at APS, we have ensured that all the students get opportunities to explore themselves and their interests through varied activities, events and core curriculum. We want to disrupt the education system by redefining the roles of students, teachers and parents in the school ecosystem. We aim to create an environment where everyone strives for excellence by caring and constantly challenging each other to become their best version!

About Us

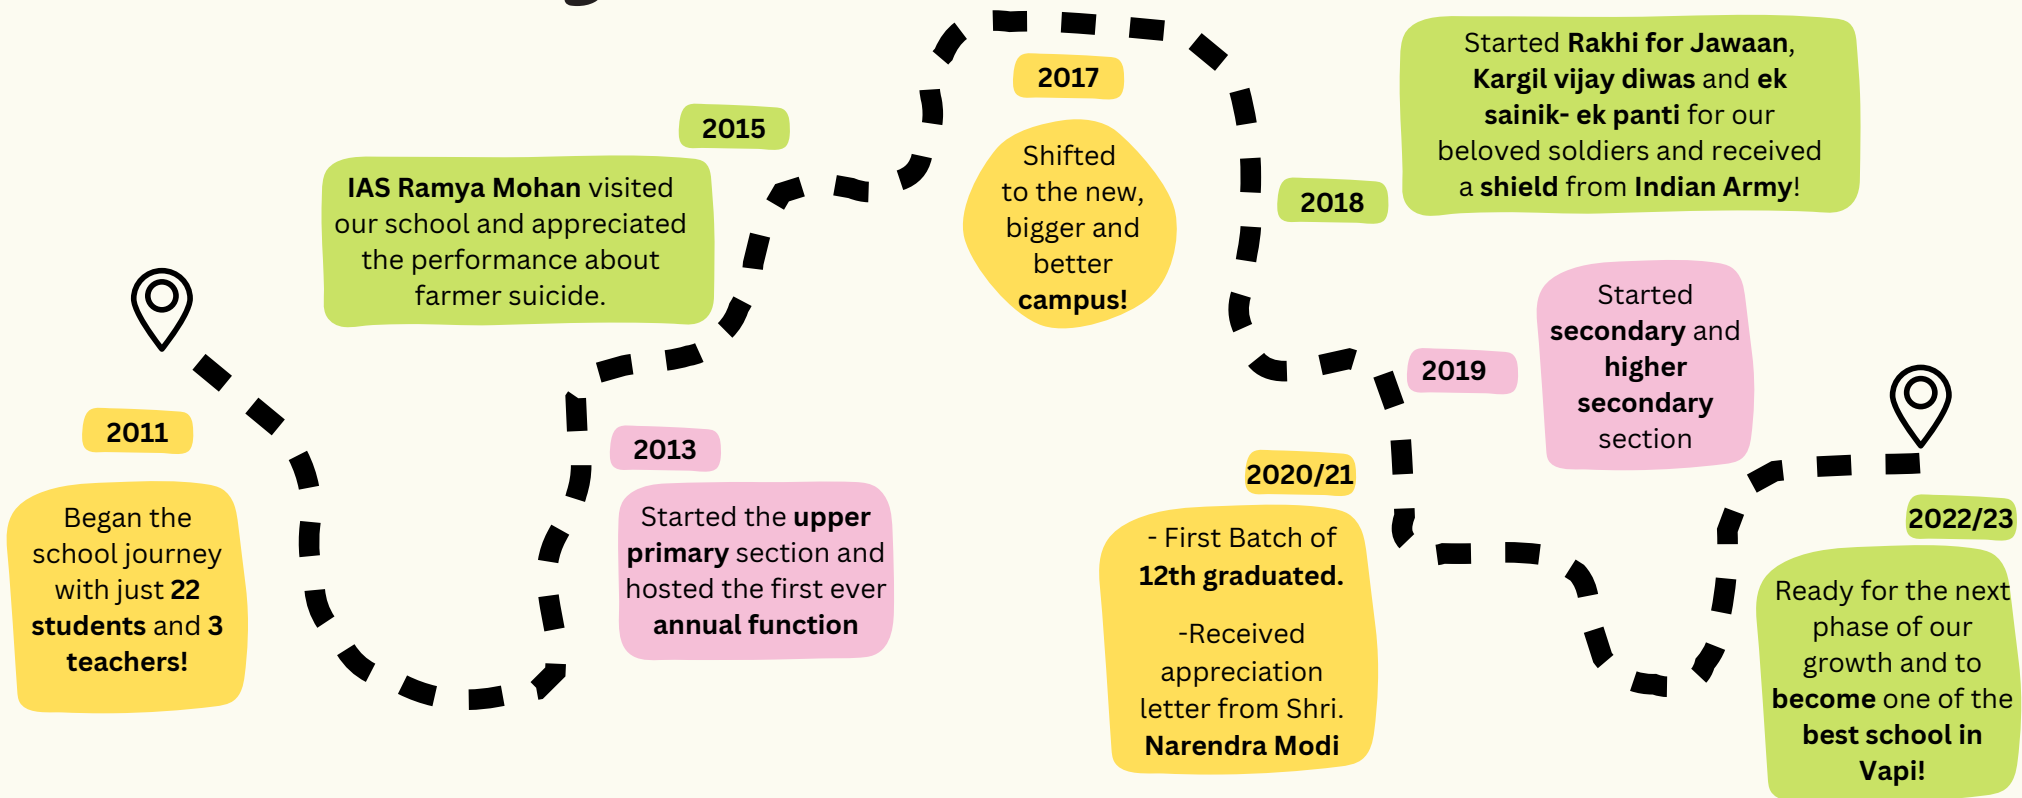

VISION

All students of Atharv Public School will incorporate the four pillars of trust, interest, capability and values to become the leaders of tomorrow.

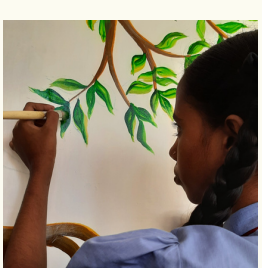

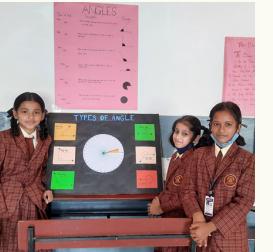

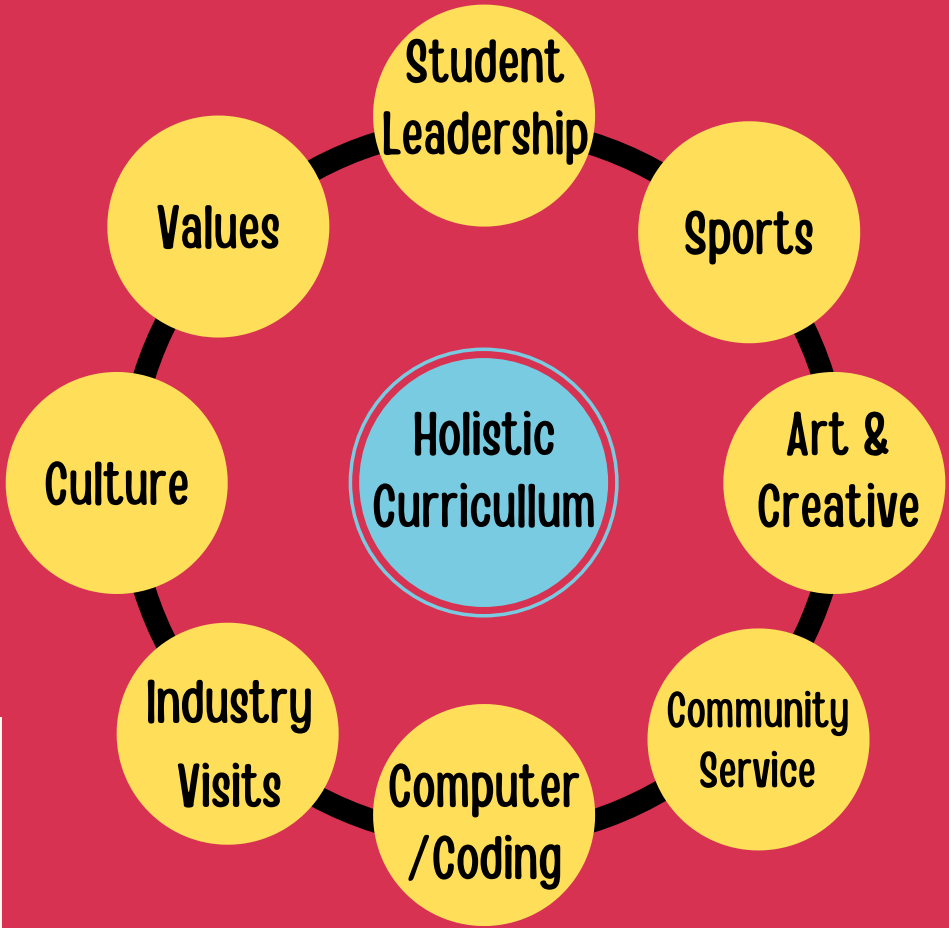

MISSION

To create responsible citizens who believe in the philosophy of Vasudhaiya Kutumbha. We aim to nurture students with innovation skills and curiosity to foster a desire for lifelong learning. We want to create an ethic of service, integrity and resilience in our students, enabling them to become architects of a sustainable world.

Our Journey

We impart an education that looks beyond the frontier of formal education

Cultural Values, Global Vision!

We want to develop modern citizens but not at the cost of our precious traditions and culture! At APS, we want our students to respect and value all the traditions and engage in exploring their own roots!

We build character in students by imparting:

Spiritual Values
Human Values
Civic Values
Life Skills

Extracurricular Activities

At APS, we provide multiple opportunities to students to explore their hobbies and interests.

We want our students to grow holistically and become all-rounder!

Throughout the year, our students engage in different activities, events, workshops and field trips to learn the 21st century skills required to excel in today's world.

Activities such as NCC, Scout Guide, Sports Competitions, Science Fairs, School Painting etc

Academic Infrastructure

Our Academics focuses on encouraging and empowering students to become independent and original thinkers in order to stimulate their intellectual interests in all aspects. We provide top notch infrastructure facilities such as computer and science labs, audio visual rooms, library and playground and, compliment it with our strong curriculum consisting of practical learning and periodic assessments.

Pre primary Years

Almost 80% of the brain development happens by the age of 6 and keeping this in mind, we build a strong foundation in the early years to make sure our students succeed in the long run!

Learning in the midst of fun and activity is how we envision our students. At APS, we believe in thematic learning and practical activities. Our endeavor is to shape natural abilities of students towards developing motor, kinesthetic, cognitive and emotional skills. Our curriculum for pre primary includes music, dance, yoga, art, craft, games and many more fun activities

Teacher Training and Development

We believe that every person in the world can grow and improve every day and become the best version of themselves. Teachers play the most important role in shaping the students' lives. Hence we feel that it is extremely important to train and upskill them in order to get the best result for our students.

As education is evolving every day, we make sure to equip our teachers with the latest and effective teaching techniques to enable them to make the maximum impact in their classroom.

Instilling a sense of patriotism

We try our best to instill the 4 values of the constitution

Liberty

Equality

Fraternity

Justice
